Poland

20 November 2015

REFERENCE LETTER

To Whom It May Concern:

This letter is written to provide a recommendation for NAFTAO Sp. z o.o., which from August 2014 until September 2015 executed prefabrication and erection of process and utility pipelines and equipment installation at PE2 Plant of the Borealis Polymers Oy, Porvoo, Finland.

The works related to the PE2 3G Upgrade Project (JCDK) were executed before, during and after shutdown TA2014 as well as during TA15/1 (spring) and during TA15/2 (autumn) and included:

- shop fabrication and erection of 315 tons of piping - carbon steel and stainless steel,
- installation of 373 tons of equipment,
- demolition of 110 tons of piping and 218 tons of equipment,
- QA/QC and As Built documentation.

Works were executed in the scheduled time, with efficient organization, fulfilling the highest quality and safety behaviour rules.

We would, therefore, recommend NAFTAO Sp. z o.o. as a reliable and professional contractor for performing similar tasks.

Veli Pelkonen

Project Manager

Borealis Polymers OY
