## REFERENCE LETTER

### To Whom It May Concern,

This letter is written to provide a recommendation for NAFTAO Sp. z o.o., which from 15.11.2018 until 31.12.2019 executed structural steel works and main mechanical works related to Stenungsund Furnace Revamp Project (SFRP) at Borealis AB, Stenungsund, Sweden.

The works related to the F-1601 D Furnace consisted of:

- Detail engineering, delivery and erection of 400 tons of new structural steel including complete Radiant Section and new steelwork for extension of Pipe Rack,
- Erection of Furnace parts such as Radiant Coils made of GX45NiCrNb45-35 material, Convection Modules, Flue Gas Ducts and Stack, Crossovers made of Incoloy 800H material and Jumpovers made of A335 P11 material,
- Erection of Equipment such as Flue Gas Fan, Fuel Gas Filter, Steam Drum with Risers and Downcomers, Transfer Line Exchangers,
- Prefabrication of 80 tons of piping including fuel gas pipelines, product pipelines, high pressure steam and low pressure steam pipelines and over 5 500 meters of steam tracing,
- Post Weld Heat Treatment and non-destructive testing of welded joints,
- Anticorrosion protection of the structural steel and piping,
- Fire proofing works of the structural steel,
- Pre-commissioning works and assistance to commissioning

NAFTO SP. z o.o. ensured highest quality and excellent safety behaviour.

We therefore would recommend NAFTAO Sp. z o.o. as a reliable and professional contractor for performing similar tasks.

Yours Sincerely,

Ulla Nilsson

Function: Project Manager – SFRP Borealis
