

Katowice, 21.11.2016

REFERENCE LETTER

I hereby confirm that NAFTA Sp. z o.o., 30 Igołomska Str, 31-983 Kraków executed complete supply and erection of two steel light fuel oil storage tanks within the frame of the investment task: „Design and construction of balance of plant for a new peak load heat generation plant at EDF Polska S.A. Krakow branch 1”.

The scope of works included:

- supply and erection of two double shell carbon steel tanks with the capacity of 1 600m³ each,
- supply and erection of platforms and ladders,
- corrosion protection,
- thermal insulation,
- delivery and installation of measuring devices and hydrocarbon monitoring system,
- delivery and installation of heating system,
- non-destructive examination of welded joints,
- calibration of tanks,
- final acceptance of Technical Supervision Office (UDT) and Central Office Of Measures (GUM).

The above mentioned works were executed from April 2015 until March 2016.

NAFTO Sp. z o.o. executed the works in a professional and timely manner demonstrating good organization and fulfilling the highest safety standards and with respect of rules and regulations being in force at EDF Polska S.A.

We can responsibly recommend NAFTA Sp. z o.o. as an experienced and reliable contractor.
