

REFERENCE LETTER

Rafako SA hereby confirms that NAFTA Sp. z o.o., 30 Igołomska Str, 31-983 Kraków under the Purchase Order No. Z/K/ZK1/0318/13/BS dated 30 October 2013, executed prefabrication and erection of steel tanks for Wet Flue Gas Desulfurization (FGD) at Wrocław Power Plant, ZEW KOGENERACJA S.A. (Project 160071).

The scope of works included prefabrication and erection of the complete carbon steel tanks:

- process water tank with the capacity of 500m³ and the weight of 30 000 kg,
- emergency dump tank with the capacity of 2 000m³ and the weight of 65 000 kg,

together with platforms, ladders, railings, measuring and technological nozzles, dehydration boxes and manholes.

NAFTO Sp. z o.o. also performed corrosion protection ,installation of the steel pins for thermal insulation of the tanks and non-destructive examination of welded joints (radiographic testing, magnetic testing, dye penetrant testing).

The works were executed from November 2013 until December 2014.

NAFTO Sp. z o.o. has executed the above mentioned works in a professional, reliable and timely manner complying with the safety rules and regulations being in force at Wrocław Power Plant.

We recommend NAFTA Sp. z o.o. as a reliable contractor for execution of similar projects.
